

110TH CONGRESS
2D SESSION

H. R. 5448

To amend title 38, United States Code, to improve the disability compensation evaluation procedure of the Secretary of Veterans Affairs for veterans with post-traumatic stress disorder, to improve the diagnosis and treatment of post-traumatic stress disorder by the Secretary of Veterans Affairs, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

FEBRUARY 14, 2008

Mr. ALLEN (for himself and Mr. MICHAUD) introduced the following bill;
which was referred to the Committee on Veterans' Affairs

A BILL

To amend title 38, United States Code, to improve the disability compensation evaluation procedure of the Secretary of Veterans Affairs for veterans with post-traumatic stress disorder, to improve the diagnosis and treatment of post-traumatic stress disorder by the Secretary of Veterans Affairs, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Full Faith in Veterans
5 Act of 2008”.

1 **SEC. 2. FINDINGS.**

2 Congress makes the following findings:

3 (1) Men and women who serve in the Armed
4 Forces make great sacrifices for the Nation and for
5 freedom.

6 (2) The Nation takes great pride in the integ-
7 rity of members of the Armed Forces and places full
8 faith and confidence in these men and women serv-
9 ing in the Armed Forces.

10 (3) The Nation should extend such full faith to
11 the integrity of those men and women when they
12 make claims for disability compensation related to
13 their service.

14 (4) In the spirit of the Armed Forces' pledge
15 never to leave a man behind, the Nation should
16 never leave a veteran behind.

17 (5) Military service is inherently dangerous and
18 stressful whether during peacetime or during war.

19 (6) Post-traumatic stress disorder (referred to
20 in this section as "PTSD") is a debilitating mental
21 health condition linked to military service that the
22 Secretary of Veterans Affairs should make every ef-
23 fort to diagnose and effectively treat.

24 (7) It is recognized in the medical community
25 that PTSD can onset at anytime after a traumatic

1 event, and the course of the disorder can contain pe-
2 riods of both relapse and remission.

3 (8) Denial by the Secretary of Veterans Affairs
4 of claims for disability compensation for PTSD due
5 to incomplete military records does a disservice to
6 those who have honorably served the country.

7 (9) Military records that would validate such
8 claims may have been lost due to no fault of the vet-
9 eran.

10 (10) Due to the dangerous and fast-paced envi-
11 ronment in which the members of the Armed Forces
12 operate, not every significant and possibly traumatic
13 incident in the life and service of each member is
14 chronicled accurately or completely.

15 (11) Evaluations for disability compensation for
16 PTSD often place veterans under the additional
17 hardship of reliving traumatic events by describing
18 them to unfamiliar medical professionals.

19 (12) According to the Institute of Medicine and
20 representatives of certain veterans' service organiza-
21 tions, evaluations for pension and disability com-
22 pensation for PTSD are sometimes completed in as
23 little as 20 minutes, despite recommendations of the
24 mental health community that evaluations should
25 take place over a period of one hour or more.

1 (13) The Veterans' Disability Benefits Commis-
2 sion, established pursuant to title XV of the Na-
3 tional Defense Authorization Act for Fiscal Year
4 2004, issued recommendations to improve the care,
5 compensation, and treatment of veterans diagnosed
6 with PTSD, including updating the schedule for rat-
7 ing disabilities under section 1155 of title 38,
8 United States Code, establishing new criteria for the
9 diagnosis and treatment of PTSD, and using a ho-
10 listic approach to treat veterans with PTSD that in-
11 corporates treatment, compensation, and vocational
12 assessment.

13 **SEC. 3. STANDARD OF PROOF FOR SERVICE-CONNECTION**
14 **OF POST-TRAUMATIC STRESS DISORDER.**

15 (a) STANDARD OF PROOF.—Section 1154 of title 38,
16 United States Code, is amended by adding at the end the
17 following new subsection:

18 “(c) The Secretary shall accept as sufficient proof of
19 service-connection of post-traumatic stress disorder al-
20 leged to have been incurred in or aggravated by service
21 in the active military, naval, or air service a diagnosis of
22 post-traumatic stress disorder by a mental health profes-
23 sional together with a written determination by the profes-
24 sional that such disorder is related to the veteran's service,
25 if consistent with the circumstances, conditions, or hard-

1 ships of such service, notwithstanding the fact that there
2 is no official record of such incurrence or aggravation in
3 such service, and, to that end, shall resolve every reason-
4 able doubt in favor of the veteran. Service-connection of
5 post-traumatic stress disorder may be rebutted by clear
6 and convincing evidence to the contrary. In the case of
7 such a rebuttal, the Secretary shall make all documents
8 related to the service-connection of the veteran's disability
9 available to the veteran.''.
10

11 (b) APPLICABILITY.—Subsection (c) of section 1154
12 of title 38, United States Code, shall apply with respect

12 carrying out subsections (c), (d), and (e), the Secretary
